Newsletter 28

Well Week 2 of Lockdown 3 - we hope you are all adjusting to the STAY HOME, STAY SAFE again.
We understand Lockdown for our CEV clients has now been extended until 21st February 21 so it may be a while before we get to see you all on site again.

We were so happy to receive the news last week that one of our young men JOE PRICE who is on the CEV list received his first dose of the vaccine.
WELL DONE Joe, brave as always. This was such great news, and we send our love to him and his amazing family.
We hope he will be the first of many and are looking forward to many more of you receiving your vaccine which will help us all start to get back to seeing you on site.
We have also been contacted by the Specialist Nurse asking for names of anyone that attends YAWN Life that has Downs Syndrome. This is to ensure that you have now all had your shielding letters as you joined the CEV list later than some others.

We hope you enjoyed your deliveries. This week you have a folder in your pack so you can keep your creations nice and tidy, this will also allow you to bring them back into show all your friends how busy you have been.

Because of the post taking so long (some people have still not received letters posted on 30/12) any letters we have for you we will now try to hand deliver. So Parents carers please do look out this week as there will be envelopes for some of you.

Zoom sessions can be challenging with so many trying to chat at once. Seeing each other is part of the fun, but we are looking into running a quieter session for some of you.

Thank you again to all our supportive parents. Please do get in contact if we can offer any help or advice, if we don't know the answer, we may be able to sign post you somewhere.
